- 8R15W-I
- 8R20W

These dimensions apply to the back of the 6R15W-4USB

Circuit Breaker

Power Cord

Spacing for the rack mounted products are based on sets of duplex receptacles. The 10 mm is the space between a duplex receptacle (used in all of our products) and the 15 mm spacing is between each set of duplex receptacles. For 10R products, the spacing between the two receptacles is 10 mm.
